**AN ADDRESS JOINTLY PRESENTED BY THE PRINCIPALS
KGS KORO AND HEADTEACHERS OF COMMUNITY
PRIMARY SCHOOLS KORO AT THE OCCASION OF
COMMISSIONING LIBRARY AND COMPUTER
SCIENCE LABORATORY AT KORO - EKITI,
KWARA STATE, NIGERIA ON
SEPTEMBER 13, 2014.**

Our Benefactor,

The National President KPU

The PACAW Committee

Gentlemen of the Press,

Ladies and Gentlemen,

I give God almighty all the glory for his manifold blessings showered on us. He has sustained us through the thin and lean periods of the school.

Dr. S.A. Ayeni is not only altruistic, honest, industrious, faithful to his people, but he is a polymath and a highly disciplined gentleman.

PACAW ACTIVITIES IN KORO

1. He started this by visiting the schools at home
2. Provision of biro, higher education notebooks for the staff
3. Renovation of Home economic centre
4. Provision of toilet facilities in the primary school
5. Payment of salaries of the two PTA teachers in the primary school
6. Provision of textbooks in different subjects for pupils in the primary school
7. Recruitment of additional ten teachers to teach in both primary school and Koro Grammar School (with a wage bill of two hundred and forty five thousand naira monthly) We are soliciting for the assistance of the LGEA office Araromi-opin, SUBEB, Teaching Service Commission to absolve the PACAW Teachers and take up the payment of salaries of the said teachers.

Today mark his official commissioning of the renovation and equipping of a modern library and computer science lab for the primary school and provision of good library facilities for Koro Grammar School.

This is a great man who never thought of what the Community will do for him but what he would do for the community,

Though there is now a general lack of interest in academic work and rent but as nation builders we will all put teaching plans on to seriously improve the passing standard of our students/pupils in public exams. We will continue to discourage all activities that could be standing in the way of good quality education. All our action be motivated by public good. We need to be genius of creativity, industrious, and we shall also remain as sources of inspirations to our staff members, students/pupils through our exemplary living and habitual honest practices.

As of today, we can boldly report that we are now at optimal level in the area of physical facilities. Except for our ICT room that require to be connected to the global world through internet. For any country to be out of doom, there is need to impact on our children who are the future leaders to have courage, education, justice and wisdom "PACAW Logo"

At this juncture, we wish to acknowledge the contributions of LGEA office, SUBEB, TSC and all our well wishers.

On behalf of LGEA Primary School, Koro Grammar School and the entire Koro Community, we say than you and God Bless.

I will like to ask the local government officials present here today how many primary schools in Ekiti LGA (Local Government Authority) and Kwara State have computer science labs and multi-functional photo copier machines?
